PROFESSIONAL SUMMARY

Motivated Computer Science student with robust skills in Python, C and C++. Proven ability to design efficient software and solve complex problems through academic projects and practical experience. Seeking an entry-level role to apply technical expertise and contribute to innovative solutions.

EDUCATION

MODERN CONVENT SCHOOL

2007-2021

JSS ACADEMY OF TECHNICAL EDUCATION

Bachelor of Technology with specialization in AI & ML

Noida, India

2021-2025

PROJECTS

VOICE ASSISTANT – Creator

- Designed and developed a voice assistant program using Python and speech recognition libraries.
- Integrated text-to-speech (TTS) and speech-to-text (STT) modules for natural and fluid conversations.
- Integrated the voice assistant with various APIs to provide real-time information such as weather updates, news, and calendar events.

GOOGLE DINO GAME – Creator

- Developed a clone of the Google Dino game using Python and Pygame, ensuring smooth gameplay and performance.
- Designed and implemented game mechanics including obstacle generation, collision detection, and scoring system.
- Employed object-oriented programming principles to create a modular and maintainable codebase.
- Developed a start screen and game-over screen to enhance the user experience and provide game context.

SKILLS

- **Programming Languages:** Proficient in C , Python, C++.
- **Web Development:** HTML5, CSS3, JavaScript.
- **Database Management:** SQL .
- **Game Development:** Experience with Pygame for 2D game development.
- **Collaboration:** Effective teamwork and communication skills, experience in collaborative projects.
- **Data Structures and Algorithms:** Understanding of algorithms, data structures, and their applications.
- **Teamwork:** Collaborative and adaptable team player, capable of working effectively in cross-functional teams.
- **Adaptability:** Quick learner with the ability to adapt to new technologies, methodologies, and project requirements.

ADDITIONAL INFORMATION

- **Projects:** Created and Developed a simple portfolio website, a basic blog page, Designed a straightforward landing page using HTML, CSS and JS.
- **Interests:**
 - ✓ **Game Development:** Passion for creating interactive experiences, experimenting with game engines like Unity or Unreal Engine, and exploring game design principles.
 - ✓ **Artificial Intelligence:** Curiosity about AI and machine learning algorithms, experimenting with neural networks or deep learning frameworks, and exploring AI applications in various domains.
- **Languages:** Proficiency in languages Hindi and English.
